Why Gymboree International School?

Gymboree has been the global leader in early child development programs for over 40 years. We currently have more than 750 centers in over 50 countries. Our unique programs created based on the latest research from "Zero to Three", encourage children to explore and play in a fun, age-appropriate learning environment. At Gymboree International School (GIS), we incorporate our global programming with English learning activities to help prepare our students with the communication skills and cognitive skills, curiosity, motivation and cultural understanding they need to succeed in the global society.

Gymboree's Unique Curriculum

Our activities encourage children to think for themselves, share their ideas, and develop into motivated learners!

Please contact your closest school to reserve a trial lesson or school visit!
